

ROOTS RUN DEEP IN UTICA COMMUNITY SCHOOLS

For generations, the UCS community has made quality education a priority. It is this long-standing commitment that has led to nationally recognized schools, strong neighborhoods and an outstanding quality of life.

Our schools are filled with students of parents and grandparents who graduated from our schools. Our graduates return to their hometown to raise their families and give their children the same quality experiences they received as UCS students.

**A long tradition of excellence...
the value of a UCS education.**

WHAT IS THE VALUE OF A UCS EDUCATION?

Success for all students with nationally recognized programs that are as unique as the children who walk through our doors.

A destination district that supports higher property values for homeowners as reported by realtors.

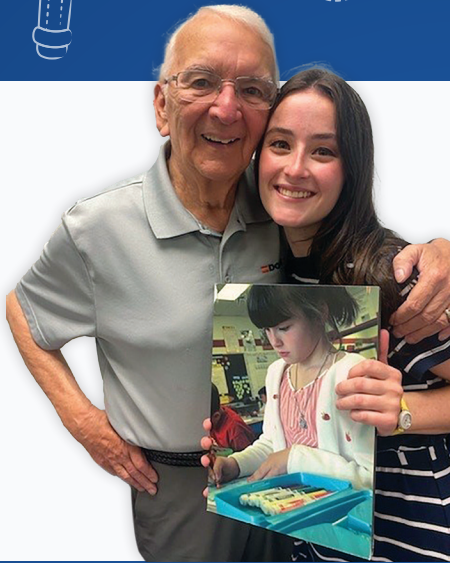

Excellence and a quality of life that draws families who support growth of businesses and strengthen our local economy.

THE VALUE OF A UCS EDUCATION

"Community has always been at the front and center of this school district. I am proud of the legacy of success that has been the foundation of UCS and the continued commitment to future excellence."

Donald Bemis, former UCS Superintendent, with his granddaughter Kathryn Leathers, first grade teacher at Havel Elementary

"It was integral for our family to remain in UCS. As a product of the district, I knew the educational quality in UCS and I wanted the same opportunities for my children."

**Karen Borbolla
UCS graduate, teacher and parent**

"My girls have become who they are through their UCS experiences and so have my grandchildren - we are all proud to be a part of this community."

**Sue DeFrank,
UCS parent and grandparent**

"UCS has done wonderful things for our students and we need to continue supporting the system."

**Michael Sekich
UCS graduate, teacher and parent**
